WHILE ITS HOT!

OpenAI have release an improved version of ChatGPT (GPT-3.5), a more advanced version of LLM AI is coming (GPT-4).

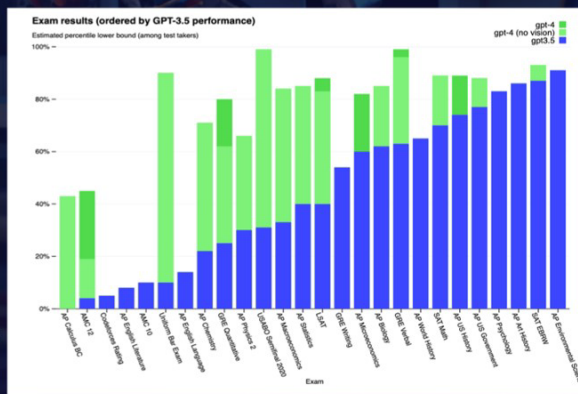

AI for HIRE!

*If you can't beat them,
Join them...
Then beat them when
they are not looking*

Trojan Horse of Education?

ADEC's Suggestion

New AI technologies are here and will continue to improve. The technologies must be **embraced by lecturers** and **incorporated into our teaching plans**. Lecturers ought to seize the chance to become knowledgeable about the potential advantages of AI and employ it as a tool to promote student learning, boost teaching effectiveness, and offer students individualised instruction, for the greater good of the students, university and our country.

Did you know?

The Large Language Model (LLMO AI) technology was largely funded by Microsoft. Copilot, the latest AI integration by Microsoft will be available in all Office Apps.

This will be the end of AI Infographic Series
